

Dear Sherburne-Earlville,

As I reflect on the past six and a half years, I am amazed at how quickly it has gone. I remember first seeing the campus and how impressed I was. I remember, back in 2005, getting to know the area and the warm, inviting nature that is so prevalent in this community.

My accident, in 2008, showed me exactly why this community is so special. I truly believe that, if not for the support and prayers of this community, I would never have returned to work. The kindness, compassion and genuine concern that all of you have shown me has changed my life forever.

The education that students receive at Sherburne-Earlville is unlike anything I have experienced over the course of my career. Students are truly cared for here and they succeed in large part because of the individualized attention that they are afforded. The staff, here at S-E, genuinely cares about our students and every employee is involved in working to ensure student success!

I am so proud and blessed to have been a part of this school and this community. As I move on in my career and return to the southern tier of New York, I take with me very fond memories of this very special place. A community that welcomed me with open arms, took care of me when I needed it most, and is wishing me well as I move on to the next phase of my career.

Thank you Sherburne-Earlville! You have so much to be proud of and I am so very pleased to have been a part of it.

Best Wishes for Continued Success,

Keith Reed
